These were just talking points/bullets for John to have in his bi-weekly with Dave. Was hoping to give to John today. Happy to make these more formal, but that may slow it down. We are hoping it prompts scheduling enforcement briefing. Let me know when Jeanneanne has weighed in. thanks

Sorry, I hit "send" too soon.

Kathy – When do you need to share this with your management? I want to make sure Jeanneanne can provide input before it goes up. Thanks, Tom

Thanks Kelly for sending the update on the rules.

And just so all are aware, I need to give John G. A list of outstanding major issues that need to be resolved prior to approval of FL's program. Please let me know if I'm missing anything in the list below.

Thanks, Kathy

All,

Please see Heather's message below. I wanted to verify that the track change docs we're reviewing (links sent to you in email 2/13) highlighted all the changes since we last reviewed the docs in August 2019. As you can see from Heather's message, edits made between 7/19-11/19 are not shown. Therefore I'll be running a compare docs on the Rule (Draft_FAR_NOPR_331_2_10_2020), the Handbook (Draft_404_Handbook_1_30_2020), and the crosswalk (DRAFT Regulatory Checklist 2-13-2020) and will sent the link to everyone as soon as I complete them.

Changes made since November 19 are shown as tracked, but we did make a few changes, mostly at EPA request between 7/19 and 11/19. It would be a good idea to take the last version you had and run a comparison in Word. I also added a newer version of the crosswalk just now.

Heather I just wanted to verify all the changes to the documents since the 7_19_2019 versions were capture in the track changes versions found in "Tracked versions and crosswalk folder"?

Hi Rosemary and Kelly,

I placed the most recent drafts here:

<https://floridadep.sharepoint.com/:f:/r/wrm/shdsvcs/FLWKGRP/EPA/Draft%20Rules/Drafts%20for%20NPR/2-12-2020?csf=1>

Please let me know if you have questions. I still need to clean up the crosswalk by finding any dated references to the CFR and updating them like we did in the rule, but functionally it is ok.
